Notes to Consolidated Financial Statements	8 - 23

The consolidated financial statements of California Nanotechnologies Corp. and its subsidiaries (the "Company") are the responsibility of management and have been reviewed and approved by the Board of Directors.

The consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. The consolidated financial statements include items that are based on best estimates and judgments of the expected effects of current events and transactions. Management has determined such items on a reasonable basis in order to ensure that the consolidated financial statements are presented fairly in all material respects.

The Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") have designed disclosure controls and procedures and internal controls over financial reporting, or have caused them to be designed under their supervision, to provide reasonable assurance that material information relating to the Company has been made known to them; and information required to be disclosed in the Company's filings is recorded, processed, summarized and reported within the time periods specified in securities legislation. The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the consolidated financial statements. The Board of Directors carries out this responsibility principally through its Audit Committee.

The Audit Committee is appointed by the Board of Directors, with a majority of its members being outside directors. The Audit Committee meets periodically with management, as well as with the external auditors, to review the consolidated financial statements, external auditors' report, MD&A, auditing matters and financial reporting issues, to discuss internal controls over the financial reporting process, and to satisfy itself that each party is properly discharging its responsibilities. In addition, the Audit Committee has the duty to review the appropriateness of the accounting policies and significant estimates and judgments underlying the consolidated financial statements as presented by management, and to review and make recommendations to the Board of Directors with respect to the independence and the fees of the external auditors. The Audit Committee reports its findings to the Board of Directors for its consideration when it approves the consolidated financial statements and MD&A for issuance to shareholders.

The consolidated financial statements have been audited by MNP LLP, the external auditors, in accordance with Canadian generally accepted auditing standards on behalf of the shareholders. The external auditors have full and free access to the Audit Committee to discuss their audit and related matters.

Independent Auditors' Report

To the Shareholders of California Nanotechnologies Corp.

We have audited the accompanying consolidated financial statements of California Nanotechnologies Corp., which comprise the consolidated statements of financial position as at February 29, 2016 and February 28, 2015, the consolidated statements of loss and comprehensive loss, changes in equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of California Nanotechnologies Corp. as at February 29, 2016 and February 28, 2015, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2 in the consolidated financial statements which discusses the Company's ability to continue as a going concern. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

California Nanotechnologies Corp.
Notes to the Consolidated Financial Statements
United States Dollars

For the years ended February 29, 2016 and February 28, 2015

1. Incorporation and operations

Veritek Technologies Inc. was incorporated under the laws of the Province of Alberta on May 19, 2002. On February 1, 2007, the Company changed its name to California Nanotechnologies Corp. (the “Company”) in connection with the reverse takeover with California Nanotechnologies Inc. The consolidated financial statements of the Company for the year ended February 29, 2016 include the accounts of the Company and its wholly-owned subsidiary. Its head office, research and development, and production operations are located at 17220 Edwards Road, Cerritos, California, U.S.A, 90703. A corporate, registered office is located at #1600, 205 - 5th Avenue S.W., Calgary, Alberta T2P 2V7. Since the date of the reverse takeover, the Company has been devoted to the development of nanocrystalline materials through grain size reduction. The advantages of these materials include improved strength and stability. The Company's target markets are Aerospace, Defense, Automotive, Medical and Sports and Recreation. Since the most significant portion of the Company's operations are located in the United States and its functional currency is denominated in United States dollars, these consolidated financial statements are presented in United States dollars. The Company is listed for trading on the TSX Venture Exchange under the symbol CNO. These consolidated financial statements were authorized for issue in accordance with a resolution by the Board of Directors on June 27, 2016.

2. Going concern

These consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

The Company has a net loss and comprehensive loss for the year of \$170,379 (2015 - \$328,071) and negative cash flows from operating activities of \$133,407 (2015 - \$254,968). In addition, the Company has an accumulated deficit of \$3,992,049 (2015 - \$3,821,670). These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to attain profitable operations and generate funds therefrom, and to continue to obtain equity investment and borrowings sufficient to meet current and future obligations and/or restructure the existing debt and payables. These consolidated financial statements do not reflect the adjustments or reclassification of assets and liabilities which would be necessary if the Company were unable to continue its operations.

3. Significant accounting policies

These consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and the International Financial Reporting Interpretations Committee (“IFRIC”) in effect at March 1, 2015. The principal accounting policies are set out below.

Any standards and interpretations that have been issued but are not yet effective, and that are available for early application, have not been applied by the Company in these consolidated financial statements. The impact of these standards and interpretations on the Company is still to be assessed.

The preparation of consolidated financial statements requires management to make estimates and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgment with reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

3. Significant accounting policies – continued

(a) Consolidation

The Company has consolidated the assets, liabilities, revenues and expenses of the subsidiaries after the elimination of intercompany transactions and balances. These consolidated financial statements include the accounts of the Company, and its wholly owned subsidiary, California Nanotechnologies Inc.

(b) Basis of measurement

These consolidated financial statements have been prepared on a going concern basis, using the historical cost convention except for share-based compensation and financial assets classified as fair value through profit or loss or available for sale which are measured at fair value. In addition, they have been prepared on an accrual basis of accounting except for cash flow information.

(c) Revenue recognition

Revenue is recognized when goods are shipped or services provided to the customer, significant contractual obligations have been satisfied, and collection of the resulting receivable is reasonably assured. The Company recognizes revenue and profits from contracts on the percentage of completion basis, and accordingly costs are expensed as incurred and revenue is recognized only to the extent of contract costs incurred that will be recoverable. Expected losses are recognized immediately when it is probable that total contract costs will exceed total contract revenue. Revenue on investments is recognized on an accrual basis.

(d) Cash

Cash includes balances with banks. Any bank indebtedness is covered with the Company's overdraft protection in the amount of \$30,000.

(e) Business combinations

The Company uses the acquisition method of accounting to account for business combinations. The consideration transferred is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Company. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

(f) Equipment

Equipment is carried at historical cost less accumulated depreciation. Depreciation is provided using the straight line method and is calculated over the estimated useful life of the assets, which has been estimated as seven years for nanotechnology equipment and three years for roof coating equipment. Borrowing costs are capitalized that are directly attributable to the construction of equipment. The Company reviews the criteria for capitalization and the useful life of its equipment on an on-going basis considering changes in circumstances.

When the cost of a part of an item of equipment is significant in relation to the total cost of an item and the items have different useful lives, they are accounted for as separate items (significant components) of equipment. The costs of day-to-day servicing of equipment are recognized in direct operating expenses. Gains and losses on disposal of an item of equipment is determined by comparing the proceeds from disposal with the carrying amount of equipment, and are recognized net within net loss in the consolidated statements of loss and comprehensive loss. Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3. Significant accounting policies – continued

(g) Leased assets

Leases in terms of which the Company assumes substantially all of the risks and rewards of ownership are classified as finance leases and are capitalized at the commencement of the lease term at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Other leases are operating leases and are not recognized in the Company's consolidated statement of financial position.

(h) Intangible assets

Intangible assets are comprised of customer relationships, trade secrets, use of operating rights and contract intangibles. Intangible assets are recorded at cost less any accumulated amortization and/or impairment losses. Intangible assets are amortized on a straight-line basis over their estimated useful life of 15 years and are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization method and period of an intangible asset is reviewed at least annually.

(i) Impairment of non-financial assets

The Company assesses, at the end of each reporting period, whether there is an indication that an asset group may be impaired. If any indication of impairment exists, the Company estimates the recoverable amount of the asset group. External triggering events include, for example, changes in customer or industry dynamics, other technologies and economic declines. Internal triggering events for impairment include lower profitability or planned restructuring. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets, cash generating units ("CGU").

If the carrying amount of the asset, or its respective CGU, exceeds its estimated recoverable amount, the difference is recognized as an impairment charge. The Company's corporate assets, which do not generate separate cash inflows, are allocated to the CGUs on a reasonable basis for impairment testing purposes.

The Company's impairment tests compare the carrying amount of the asset or CGU to its recoverable amount. The recoverable amount is the higher of fair value less costs to sell ("FVLCS") and value in use ("VIU"). FVLCS is the amount obtainable from the sale of an asset or CGU in an arm's length transaction of similar assets or observable market prices, less the costs of disposal. The determination of VIU requires the estimation and discounting of cash flows which involves key assumptions that consider all information available on the respective testing date. Management uses its judgment, considering past and actual performance as well as expected developments in the respective markets and in the overall macro-economic environment and economic trends to model and discount future cash flows.

3. Significant accounting policies – continued

(j) Provisions

Provisions cover risks resulting from legal disputes and proceedings. In order to determine the amount of the provisions, the facts related to each case, the size of the claim, awards in similar cases, the expected timing of such possible awards, insurance coverage and deductibles and independent expert advice are considered along with assumptions regarding the probability of a successful claim and the range of possible awards. The actual costs can deviate from these estimates.

A provision is recognized in the consolidated financial statements when the Company has a material obligation, whether existing or potential, as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. If the obligation is determined to be material, then the estimated amount of the provision is determined by discounting the expected future cash outflows. At February 29, 2016 and February 28, 2015 there were no provisions recognized in the consolidated financial statements.

(k) Income taxes

Income tax expense for the year consists of current and deferred tax. Deferred tax is recognized in the consolidated statement of loss and comprehensive loss, except to the extent that it relates to a business combination or items recognized in other comprehensive loss (“OCL”) or directly in equity.

Taxable income differs from income as reported in the consolidated statements of loss and comprehensive loss. As a result, current tax is the expected tax due on taxable income less adjustments to prior periods using tax rates enacted, or substantively enacted as at the reporting date in jurisdictions where the Company operates.

In general, deferred taxes are recognized based on temporary differences arising between the tax value of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax liabilities are not recognized and are not accounted for if they arise from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income. Deferred taxes are calculated on the basis of the tax laws enacted or substantively enacted as at the reporting date and apply to when the related deferred tax asset is realized or the deferred tax liability is settled.

Current and deferred tax assets and liabilities are offset when there is a legally enforceable right to settle on a net basis and when such assets and liabilities relate to income taxes imposed by the same taxation authority.

(l) Foreign exchange

These consolidated financial statements have been presented in United States (U.S.) dollars, the functional currency of the Company's operations. Monetary assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the foreign exchange rate in effect at the statement of financial position date. Revenue and expense transactions in foreign currencies are translated to the appropriate functional currency at the foreign exchange rate on the date of the transaction with all consequential exchange differences recognized in net loss and comprehensive loss.

Non-monetary assets that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transactions. All resulting exchange differences from translation of the functional currency into a different reporting currency are recognized as a separate component of OCL.

3. Significant accounting policies – continued

(m) Share-based compensation plan

The Company provides equity-settled share-based payments in the form of a share option plan to its employees, officers, directors and consultants. The Company accounts for these share options using the fair value method of accounting for share-based compensation expense. Under this method, the associated compensation expense is charged to net loss and comprehensive loss with a corresponding increase to contributed surplus less an estimated forfeiture rate over each vesting period (tranches) of the options granted. The forfeiture rate is based on past experience of actual forfeitures. Each tranche is treated as a separate share option grant, and subsequently valued at the start of each tranche's vesting period.

Share-based compensation transactions with non-employees are measured at the fair value of the goods or services recovered. However, if the fair value cannot be estimated reliably, the share-based compensation transaction is measured at the fair value of the equity instruments granted at the date the non-employee provides the goods or services.

(n) Per share amounts

Basic loss per share is calculated using the weighted average number of shares outstanding during the period. The Company follows the treasury stock method for the computation of diluted per share amounts. This method assumes the proceeds from the exercise of dilutive options and warrants are used to purchase common shares at the weighted average market price during the period.

(o) Research and development expenses

Expenses related to research and development activities that do not meet generally accepted criteria for deferral are expensed as incurred, net of related tax credits and government grants. Development expenses that meet generally accepted criteria for deferral, in accordance with the IAS 38, "Intangible Assets", are capitalized, net of related tax credits and government grants, and are amortized against earnings over the estimated benefit period. The Company assesses, at the end of each reporting period, whether there is an indication the assets may be impaired. If any indication of impairment exists, the Company estimates the recoverable amount of the assets. Research and development expenses are mainly comprised of salaries and related expenses, material costs as well as fees paid to third party consultants.

(p) Financial instruments

All financial instruments are required to be measured at fair value on initial recognition of the instrument. Measurement in subsequent periods depends on whether the financial instrument has been classified as "fair value through profit or loss", "available-for-sale", "held-to-maturity", "loans and receivables", or "other financial liabilities" as defined by the standard.

Financial assets and financial liabilities at "fair value through profit or loss" are measured at fair value with changes in fair value recognized in net loss and comprehensive loss. Financial assets classified as "available-for-sale" are measured at fair value, with changes in fair value recognized in OCL. Transaction costs related to financial assets and liabilities recorded at fair value are included in net loss when incurred. Financial assets classified as "held-to-maturity", "loans and receivables" and financial liabilities classified as "other financial liabilities" are initially recorded at fair value plus transaction costs and are subsequently measured at amortized cost using the effective interest method of amortization.

3. Significant accounting policies – continued

(p) Financial instruments - continued

Cash and share purchase warrants are designated as "fair value through profit or loss". Accounts receivable are designated as "loans and receivables". Accounts payable and accrued liabilities, and advances from related parties are designated as "other liabilities".

Financial instruments measured at fair value on the consolidated statement of financial position require classification into one of the following levels of the fair value hierarchy:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices listed in Level 1 that are observable for the asset or liability either directly or indirectly;
- Level 3 - Inputs that are not based on observable market data.

The fair value hierarchy level at which a fair value measurement is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

A financial asset is assessed at each reporting date to determine whether it is impaired based on objective evidence indicating that one or more events have had a negative effect on the estimated future cash flows of that asset. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the net present value of the estimated future cash flows discounted at the original effective interest rate. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in net loss and comprehensive loss. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized.

(q) Significant accounting estimates and judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and judgments that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent assets and liabilities at the reporting date. On an ongoing basis, management evaluates its judgments and estimates in relation to revenue, expenses, assets and liabilities. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

The following are the most significant accounting judgments and estimates made by the Company in applying accounting policies:

Judgments

Determining cash generating units ("CGU's")

For the purpose of assessing impairment of tangible and intangible assets, assets are grouped at the lowest level of separately identified cash inflows which make up the CGU. Determination of what constitutes a CGU is subject to management judgment. The asset composition of a CGU can directly impact the recoverability of assets included within the CGU. In assessing the recoverability of tangible and intangible assets, each CGU's carrying value is compared to the greater of its FVLCS and VIU.

3. Significant accounting policies – continued

(q) Significant accounting estimates and judgments - continued

Deferred taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that taxable earnings will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable earnings together with future tax planning strategies.

Estimates

Valuation of accounts receivables

Accounts receivable are reviewed on a regular basis to estimate recoverability of balances. Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary.

Share-based compensation

The Corporation uses an option pricing model to determine the fair value of share-based compensation. Inputs to the model are subject to various estimates about volatility, interest rates, dividend yields, forfeiture rates and expected life of the units issued. Fair value inputs are subject to market factors as well as internal estimates. The Company considers historic trends together with any new information to determine the best estimate of fair value at the date of grant.

Depreciation and amortization

The consolidated financial statements include estimates of the useful economic life of equipment and intangible assets. Due to varying assumptions required to be made with regards to future recoverability of these assets, the depreciation and amortization recorded by management is based on their best estimate in this regard and may be significantly different from those determined based on future operational results.

(r) New accounting policies

For the twelve months ended February 29, 2016, the Company did not adopt any new IFRS standards.

(s) Recent accounting pronouncements

In May 2014, the IASB issued IFRS 15 “Revenue from Contracts with Customers”, which replaces International Accounting Standard (“IAS”) 18 “Revenue”, IAS 11 “Construction Contracts”, and related interpretations. The standard is required to be adopted either retrospectively or using a modified transition approach for fiscal years beginning on or after January 1, 2018, with earlier adoption permitted. IFRS 15 will be applied by the Company on March 1, 2018 and the Company is currently evaluating the impact of the standard on its consolidated financial statements.

For the years ended February 29, 2016 and February 28, 2015

3. Significant accounting policies – continued

(s) Recent accounting pronouncements - continued

In July 2014, the IASB completed the final elements of IFRS 9 “Financial Instruments”. The standard supersedes earlier versions of IFRS 9 and completes the IASB’s project to replace IAS 39 “Financial Instruments: Recognition and Measurement”. IFRS 9, as amended, includes a principle-based approach for classification and measurement of financial assets, a single ‘expected loss’ impairment model and a substantially reformed approach to hedge accounting. The standard will come into effect for annual periods beginning on or after January 1, 2018, with earlier adoption permitted. IFRS 9 will be applied on a retrospective basis by the Company on March 1, 2018 and the Company is currently evaluating the impact of the standard on its consolidated financial statements.

In January 2016, the IASB issued IFRS 16 “Leases”, which replaces IAS 17 “Leases”. For lessees applying IFRS 16, a single recognition and measurement model for leases would apply, with required recognition of assets and liabilities for most leases. The standard will come into effect for annual periods beginning on or after January 1, 2019, with earlier adoption permitted if the entity is also applying IFRS 15 “Revenue from Contracts with Customers”. IFRS 16 will be applied by the Company on March 1, 2019 and the Company is currently evaluating the impact of the standard on its consolidated financial statements.

4. Related party transactions

Advances from related parties are from a related entity that owns 18% of the Company’s shares. The advances bear interest at 2% per annum and is due upon demand. There are no set terms for repayment and the loan is secured by all the assets of the Company. Interest was paid in the amount of \$12,004 (2015 - \$nil) on the advances with accrued interest in the amount of \$137,541 (2015 – \$128,847). This related entity also engaged with the Company for revenue of \$32,194 (2015 – \$34,588) and incurred expenses of \$34,058 (2015 – \$924). The transactions are considered to be in the normal course of operations and are initially recognized at their fair value.

8. Income taxes

	February 29, 2016	February 28, 2015
Statutory tax rate	26.33%	25.00%
Income taxes recovery at the statutory rate	\$ (44,861)	\$ (81,418)
Share-based compensation	5,080	11,707
Other	(4,278)	(31,514)
Change in deferred tax asset not recognized	44,859	103,625
	\$ 800	\$ 2,400

The statutory tax rate increased from 25% to 26.33% due to an increase in the Alberta provincial tax rate on July 1, 2015.

Principal components of deferred tax asset (liability) are:

	February 29, 2016	February 28, 2015
Deferred tax:		
Unused tax losses carry forward - US (1)	\$ 4,388	\$ 9,334
Equipment - US	(4,388)	(9,334)
	\$ -	\$ -

Details of the unrecognized deductible temporary differences are as follows:

	February 29, 2016	February 28, 2015
Deferred tax:		
Unused tax losses carry forward - US (1)	\$ 3,414,247	\$ 3,329,203
Unused tax losses carry forward - Canada (1)	683,091	695,162
Share issuance costs	16,479	26,385
Disallowed interest - US	16,694	16,694
	\$ 4,130,511	\$ 4,067,444

(1) Consists of U.S. Federal and State tax losses in the approximate amount of \$3,414,247 expiring at various dates commencing 2025. Canadian tax losses in the approximate amount of \$683,091 expiring at varying dates commencing 2016.

9. Compensation of key management personnel

The remuneration of key management personnel during the year was as follows:

	February 29, 2016	February 28, 2015
Remuneration including share based payments	\$ 111,818	\$ 117,080

Key management personnel of the Company include the CEO and CFO.

10. Share capital

For the years ended February 29, 2016 and February 28, 2015

10. Share capital - continued

(b) Issued:

	Number	Amount
Total issued and outstanding, February 28, 2014	25,820,000	2,386,148
Issued under private placement	5,290,296	518,108
Issued upon exercise of options	120,000	18,694
Share issuance costs	-	(32,981)
Total issued and outstanding, February 28, 2015 and February 29, 2016	31,230,296	\$ 2,889,969

On March 14, 2014, 120,000 options were exercised for total proceeds of \$10,827. The fair value of the options exercised was \$0.10 per option, resulting in a total charge to share capital of \$18,694 and a charge to contributed surplus of \$7,867.

On April 9, 2014, the Company completed a private placement of 5,290,296 Units at \$0.135 Canadian Dollars ("CAD") per Unit for total proceeds of \$714,190 CAD. Each Unit was comprised of one common share and one-half of one common share purchase warrant exercisable at \$0.225 CAD per common share until April 9, 2015. These warrants were valued at \$0.0562 CAD per warrant for a total of \$148,676 CAD. The ascribed values of the warrants were determined using the Black-Scholes fair value pricing model based on a risk free rate of 1.06%, expected volatility of 167.9% and an expected life of one year. The total costs to complete the private placement were \$32,981, which included finder's fees in the aggregate amount of \$16,745 CAD to eligible finders who introduced subscribers to the private placement.

Warrants

	Number	Amount
Total issued and outstanding, February 28, 2014	-	\$ -
Issuance of warrants	2,645,148	136,416
Unrealized gain on share purchase warrants	-	(133,939)
Total issued and outstanding, February 28, 2015	2,645,148	\$ 2,477
Unrealized loss on share purchase warrants	-	18,486
Total issued and outstanding, February 29, 2016	2,645,148	\$ 20,963

On March 17, 2015, the warrants' expiration date was extended to October 8, 2015. Then on October 6, 2015, the TSX Venture Exchange approved a second extension of the expiration date of the share purchase warrants to October 8, 2016. As the exercise price of the share purchase warrants are fixed in Canadian dollars and the functional currency of the Company is the U.S. dollar, the warrants are considered a derivative, as a variable amount of cash in the Company's functional currency will be received on exercise. At February 29, 2016, the fair value of share purchase warrants issued and outstanding with Canadian dollar exercise prices was \$20,963 (2015 - \$2,477). The share purchase warrants are re-measured at fair value at each statement of financial position date with the change in fair value recorded in net loss and comprehensive loss during the period of change. The fair value of share purchase warrants is reclassified to equity upon exercise.

(c) Options - Directors, Officers, Employees and Consultants

The Company has a stock option plan for directors, officers, employees and consultants. Stock options can be issued up to a maximum number of common shares equal to 10% of the issued and outstanding common shares of the Company. The exercise price of options granted is not less than the market price of the common shares traded and along with the vesting period, is determined by the Board of Directors. Options granted have a term of up to 5 years.

	Number of Options	Weighted Average price (CAD)
Balance, February 28, 2014	2,300,000	\$ 0.08
Granted	475,000	0.11
Forfeited	(50,000)	0.05
Expired	(120,000)	0.10
Balance, February 28, 2015	2,605,000	\$ 0.08
Granted	300,000	0.09
Expired	(199,999)	0.09
Forfeited	(125,001)	0.05
Balance, February 29, 2016	2,580,000	\$ 0.08

During the year ended February 29, 2016, the Company recorded \$19,292 in share-based compensation expense (2015 - \$46,826). The weighted average fair value of the options granted during the year was \$0.05 (2015 - \$0.13), and was estimated using the Black Scholes option-pricing model with the following assumptions:

Risk free interest rate (%)	0.5-0.6
Expected term (years)	2-5
Expected volatility (%)	165-175
Dividend per share	-
Forfeiture rate (%)	5.3

The following tables summarize information about stock options outstanding at February 29, 2016:

Options Outstanding				Options Exercisable	
Exercise Price	Number of options	Weighted Average of Remaining Contractual Life (years)	Weighted Average Exercise Price (CAD)	Number of Options	Weighted Average Exercise Price (CAD)
\$ 0.05 - 0.20	2,580,000	2.1	\$ 0.08	1,796,663	\$ 0.09

Advances from related parties	1,045,522	1,045,522	1,031,326	1,031,326

California Nanotechnologies Corp.
Notes to the Consolidated Financial Statements
United States Dollars

For the years ended February 29, 2016 and February 28, 2015

13. Financial instruments - continued

The table below sets out fair value measurements using fair value hierarchy.

	Total	Level 1	Level 2	Level 3
Assets				
Cash	\$ 108,687	\$ 108,687	\$ -	\$ -
Share purchase warrants	20,963	-	20,963	-

There have been no transfers during the period between Levels 1, 2 and 3.

The carrying values of accounts receivable, accounts payable and accrued liabilities approximate their fair value due to their short-term nature.

The fair value of the Company's advances from related parties and finance lease obligation approximate their fair values due to the interest rates applied to these instruments, which approximate market interest rates.

As disclosed above, the Company holds various forms of financial instruments. The nature of these instruments and the Company's operations expose the Company to various risks. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical. The Company does not use off statement of financial position contracts to manage these risks.

Liquidity Risk

The Company defines liquidity risk as the financial risk that the Company will encounter difficulties meeting its obligations associated with financial liabilities. The Company's objective for managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. This risk is mitigated by managing the cash flow by controlling receivables and payables to vendors and related parties. At February 29, 2016, the Company had a working capital deficiency of \$996,126 (2015 – \$880,506).

Foreign currency risk

A portion of the Company's operations are located outside of the U.S. and, accordingly, the related financial assets and liabilities are subject to fluctuations in exchange rates.

The Company manages its exposure to foreign currency fluctuations by maintaining foreign currency bank accounts and receivables to offset foreign currency payables and planned expenditures. At February 29, 2016, the Company had the following balances denominated in Canadian dollars. The balances have been translated into U.S. currency in accordance with the Company's foreign exchange accounting policy.

	U.S. Dollar February 29, 2016	U.S. Dollar February 28, 2015
Cash	\$ 2,766	\$ 166,185
Accounts Payable	29,554	27,069

California Nanotechnologies Corp.
Notes to the Consolidated Financial Statements
United States Dollars

For the years ended February 29, 2016 and February 28, 2015

13. Financial instruments - continued

The Company operates with a U.S. dollar functional currency which gives rise to currency exchange rate risk on the Company's Canadian dollar denominated monetary assets and liabilities, such as Canadian dollar bank accounts and accounts payable, as follows:

	Impact on Net Loss
U.S. Dollar Exchange Rate – 10% increase	\$ 2,679
U.S. Dollar Exchange Rate – 10% decrease	(2,679)

Credit risk

The Company manages credit risk by dealing with financially sound customers, based on an evaluation of the customer's financial condition. For the year ended February 29, 2016, the Company was engaged in contracts for products with two (2015 – two) customers in excess of 10% of revenue, which accounted for \$209,377 (2015 - \$207,881) or 49% (2015 – 59%) of the Company's total revenue. The maximum exposure to credit risk is the carrying value of accounts receivable and cash. Three (2015 - three) customers had outstanding balances in excess of 10% of accounts receivable, which accounted for \$36,488 (2015 - \$19,171) or 81% (2015 – 41%) of the Company's total accounts receivable balance. No allowance for doubtful accounts was recorded. The table below provides an analysis of our current and past due but not impaired accounts receivables.

	Total	Current	≤ 30 days	> 30 days ≤ 60 days	>60 days ≤ 90 days	> 90 days
February 29, 2016	\$ 46,860	\$ 42,096	\$ 4,124	\$ 640	\$ -	\$ -
February 28, 2015	\$ 46,547	\$ 34,413	\$ 8,306	\$ -	\$ 617	\$ 3,211

15. Capital Disclosures

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash, and equity comprised of issued capital, contributed surplus and deficit.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the year ended February 28, 2015.
