1 Nature of operations and going concern

BluMetric Environmental Inc. (the Company) is an integrated product and service organization providing sustainable solutions to complex environmental issues in Canada and abroad. The Company serves clients in many industrial sectors and at all levels of government, both domestically and internationally.

The Company focuses on the following services and solutions: environmental earth sciences and engineering, contaminated site remediation, water resource management, industrial hygiene, occupational health and safety, water and wastewater design-build and pre-engineered solutions.

The head office of the Company is located at 3108 Carp Road, Ottawa, Ontario, Canada KOA 1LO. The Company's common shares are listed on the Toronto Venture Exchange (TSX.V) in Canada.

Going concern

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) applicable to a going concern, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations for the foreseeable future.

The Company anticipates having sufficient funds over the next twelve months to discharge its liabilities, as well as sufficient earnings to meet all debt covenants. Nevertheless, there is no assurance that these ongoing initiatives will continue to be successful.

The Company's ability to continue as a going concern is dependent on its ability to produce sufficient revenues and limit expenses to allow the Company to service its debt and remain in compliance with its debt covenants. In assessing whether this assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. These condensed consolidated interim financial statements do not reflect adjustments that would be necessary in the carrying values of assets and liabilities, the reported revenues and expenses, and the consolidated balance sheet classifications used, if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2 Basis of presentation

Statement of compliance

These unaudited condensed consolidated interim financial statements have been prepared in compliance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). These unaudited condensed consolidated interim financial statements do not contain all the information and disclosures required for annual financial statements, and should be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended September 30, 2017, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). In the opinion of the Company, the accompanying unaudited condensed consolidated interim financial statements contain only normal recurring adjustments that

Notes to the Condensed Consolidated Interim Financial Statements For the nine months ended June 30, 2018

(expressed in Canadian dollars) (unaudited)

are necessary for a fair presentation for its financial position, changes in shareholders' equity, net earnings and comprehensive income, and cash flows for the interim period. The unaudited condensed consolidated interim balance sheet at December 31, 2017 was derived from the audited annual financial statements, but does not contain all of the footnote disclosures from the annual financial statements.

Authorization of consolidated financial statements

The condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on August 27th, 2018.

Presentation and functional currency

The Company's presentation and functional currency is the Canadian dollar.

Basis of measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis.

Accounting policies

The accounting policies set out in the Company's most recent annual consolidated financial statements have been applied consistently to all periods presented in these condensed consolidated interim financial statements. As such, these condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements and related note disclosures for the year ended September 30, 2017.

3 Summary of significant accounting policies

Future applicable accounting standards

Accounting standards issued but not yet applied

At the date of authorization of these condensed consolidated interim financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective. The Company does not intend to adopt these standards early and is currently evaluating the impact of these new standards on the condensed consolidated interim financial statements.

Management anticipates that all of the relevant pronouncements will be adopted in the Company's accounting policies for the first reporting period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's condensed consolidated interim financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's condensed consolidated interim financial statements.

• IFRS 9, Financial Instruments (IFRS 9)

The final version of IFRS 9 (2014) was issued in July 2014 as a complete standard including the requirements for classification and measurement of financial instruments, the new expected loss impairment model and the new hedge accounting model. IFRS 9 (2014) will replace IAS 39, Financial Instruments - Recognition and Measurement. IFRS 9 (2014) is effective for reporting periods beginning on or after January 1, 2018. The Company is in the process of evaluating the impact of this new standard on its consolidated financial statements. However, management expects there to be a significant impact on the calculation and potentially the amount of provisions for bad debts using the new expected loss model, while there are no significant impacts expected with respect to hedging and classification of financial instruments.

• IFRS 15, Revenue from Contracts with Customers (IFRS 15)

On May 28, 2014, the IASB published IFRS 15, Revenue from Contracts with Customers (IFRS 15) replacing IAS 11, Construction Contracts, IAS 18, Revenue, IFRIC 13, Customer Loyalty Programmes, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfer of Assets from Customers, and SIC 31, Revenue - Barter Transactions Involving Advertising Services. The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. The new standard is effective for annual periods beginning on or after January 1, 2018. The Company is in the process of evaluating the impact of this new standard on its consolidated financial statements.

• IFRS 16, Leases (IFRS 16)

In January 2016, the IASB published IFRS 16, Leases (IFRS 16). The standard specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases, unless the lease term is 12 months or less, or the underlying asset has a low value. Consistent with its predecessor, IAS 17, the new lease standard continues to require lessors to classify leases as operating or finance. IFRS 16 is to be applied retrospectively for annual periods beginning on or after January 1, 2019. Earlier application is permitted if IFRS 15 Revenue from Contracts with Customers has also been applied. The Company does not intend to adopt this standard early and is currently evaluating the impact of adopting this standard on the consolidated financial statements.
