Condensed Interim Financial Statements
For the Three Months Ended
December 31, 2019
(unaudited, expressed in Canadian dollars)

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying condensed unaudited interim financial statements of the company have been prepared by, and are the responsibility of, the company's management.

The company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of condensed interim financial statements by an entity's auditor.

1 Nature of operations

BluMetric Environmental Inc. (the Company) is an integrated product and service organization providing sustainable solutions to complex environmental issues in Canada and abroad. The Company serves clients in many industrial sectors, and at all levels of government, both domestically and internationally.

The Company focuses on environmental earth sciences and engineering, contaminated site remediation, water resource management, industrial hygiene, occupational health and safety, water and wastewater design-build and pre-engineered solutions.

The head office of the Company is located at 3108 Carp Road, Ottawa, Ontario, Canada KoA 1Lo. The Company's common shares are listed on the Toronto Venture Exchange (TSX.V – BLM) in Canada.

2 Basis of presentation

Statement of compliance

These condensed unaudited interim financial statements have been prepared in compliance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). These condensed unaudited interim financial statements do not contain all the information and disclosures required for annual financial statements, and should be read in conjunction with the annual audited financial statements of the Company for the year ended September 30, 2019, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). In the opinion of the Company, the accompanying condensed unaudited interim financial statements contain only normal recurring adjustments that are necessary for a fair presentation for its financial position, changes in shareholders' equity, net earnings and comprehensive income, and cash flows for the interim period. The condensed unaudited interim balance sheet at December 31, 2019 was derived from the audited annual financial statements, but does not contain all of the footnote disclosures from the annual financial statements.

Authorization of financial statements

The condensed interim financial statements were approved and authorized for issue by the Board of Directors on March 2, 2020.

Presentation and functional currency

The Company's presentation and functional currency is the Canadian dollar.

Basis of measurement

The condensed interim financial statements have been prepared on the historical cost basis.

3 Summary of significant accounting policies

With the exception of the adoption of the new standard set out in Note 4 below, the accounting policies set out in the Company's most recent annual financial statements have been applied consistently to all periods presented in these condensed interim financial statements. As such, these condensed interim financial statements should be read in conjunction with the annual financial statements and related note disclosures for the year ended September 30, 2019.

4 New accounting standards

IFRS 16, Leases

This note explains the impact of the adoption of IFRS 16, Leases (IFRS 16) in the financial statements and discloses the new accounting policies that have been applied from October 1, 2019 below.

a) Initial adoption

As permitted under the transition provisions in IFRS 16, the Company has chosen not to restate comparative information and recognized the cumulative effect upon initial application of the standard in retained earnings as at October 1, 2019.

On adoption of IFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of October 1, 2019 for each asset class. The lessee's incremental borrowing rate applied to the lease liabilities on October 1, 2019 ranged from 2.99%-5.95%.

For leases previously classified as finance leases under IAS 17, the Company elected to apply the practical expedient whereby the Company is not required to reassess whether a contract is, or contains, a lease at the date of initial application. As such, the Company applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not previously identified as leases under IAS 17 and IFRIC 4 were not reassessed. For leases that were previously classified as finance leases under IAS 17, the Company recognized the carrying amount of the lease asset and lease liability immediately before transition as the carrying amount of the right of use asset and the lease liability at the date of initial application.

The Company also adopted the recognition exemptions permitted for short-term leases (i.e. less than 12 months) and leases for which the underlying asset has a low value, as well as the following practical expedients permitted on initial adoption under the standard:

- Applying a single discount rate to a portfolio of leases with similar characteristics; and
- Using the Company's previous assessment of impairment under IAS 37 Provisions, Contingent Liabilities and Contingent Assets, for onerous contracts instead of re-assessing the right-of-use asset for impairment on October 1, 2019. There were no onerous lease contracts requiring an adjustment to right-of-use asset at the date of initial application.

The associated right-of-use assets for property leases were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the statement of financial position as at September 30, 2019.

The following table reconciles the impact of IFRS 16 on the previously reported statement of financial position as at September 30, 2019:

			October 1, 2019
	As reported at September 30 2019	Impacts from adoption of IFRS 16 \$	As adjusted at October 1 2019
Prepaid expenses Property, plant and equipment Right of use assets (note 11)	196,684 190,058 -	(17,813) (62,331) 1,087,881	178,871 127,727 1,087,881
Total increase in assets		1,007,737	
Trade and other payables Current lease liabilities (note 11) Current portion of long-term debt Long-term debt Non-current lease liabilities (note 11)	2,995,982 - 64,797 2,695,167	(24,161) 417,657 (12,544) (50,979) 677,764	2,971,821 417,657 52,253 2,644,188 677,764
Total increase in liabilities		1,007,737	

Differences between lease liabilities noted above and the minimum lease payments disclosed in Note 22 of the Company's September 30, 2019, annual financial statements are mainly due to the following:

	October 1, 2019 \$
Operating lease payments disclosed as at September 30, 2019 Adjustments relating to variable lease payments Short-term leases exemption Leases of low-value assets exemption	1,785,656 (403,026) (140,628) (123,287)

b) Policy applicable from October 1, 2019

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset this may be specified explicitly or implicitly, and should be physically distinct. If the supplier has a substantive substitution right, then the asset is not identified:
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone price.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. Lease terms for right-of-use assets vary between two to eight years.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

To determine the incremental borrowing rate, the Company:

- uses recent third-party financing received by the Company as a starting point, where possible, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term and security.

Notes to Condensed Interim Financial Statements

For the three months ended December 31, 2019 and 2018

(expressed in Canadian dollars) (unaudited)

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

Variable lease payments are not included in the measurement of lease liabilities and are recorded as expense in the statement of earnings in the period in which the condition that triggers those payments occurs.

Lease payments are allocated between principal and finance cost. The finance cost is charged to the statement of net earnings over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in the relevant index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases of property, plant and equipment that have a lease term of 12 months or less and leases of low-value assets (less than \$5,000), such as some IT-equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

6 Credit facilities

The Company's short-term credit facilities consist of an operating demand loan in the amount of \$2,000,000 and an additional \$500,000 for the issuance of letters of credit. The facility carries a floating interest at prime plus 2.25%, is collateralized by a first ranking general security agreement over all of the Company's present and future assets, is subject to margining based on the amounts of eligible accounts receivable and has no contractual maturity. Each letter of credit must be 100% guaranteed in favour of the bank through a separate program provided by the Export Development Corporation. For the period ended December 31, 2019, the effective interest rate under this facility was 6.2% (2018 -5.95%).

As at December 31, 2019, the Company had drawn \$995,299 on its operating demand loan and \$nil in letters of credit (September 30, 2019 – \$77,055 and \$nil respectively).

The Company has certain covenants in accordance with its short-term credit facilities. As at December 31, 2019, the Company was in compliance with all its covenants.

On December 19, 2019, the Company closed the sale of its office building at 3108 Carp Road in Ottawa (note 8). The sale included all assets used as security for the demand loan. The proceeds from the sale were used to extinguish the Company's demand loan. Unamortized deferred financing costs of \$23,948 948 attributed to the demand loan were expensed to the statement of net earnings on the closing date.

10 Long-term debt

	December 31 2019 \$	September 30 2019 \$

At December 31, 2019, lease liabilities were discounted using the Company's incremental borrowing rate and had weighted-average rates ranging from 2.99%-5.95%. Future undiscounted cash outflows for lease liabilities are disclosed in note 4.

The Company leases buildings for its office spaces across Canada. Lease terms range from less than one to eight years. To provide operational flexibility, the Company seeks to include extension or termination options in its leases. At the commencement of a lease, the Company assesses whether it is reasonably certain it will exercise the lease extension option (or not exercise a termination option). The Company reassesses this when a significant event or significant change in circumstances within the Company's control has occurred.

The Company leases vehicle and office equipment with terms of three to five years. These leases do not usually contain extension options, purchase options, or residual value guarantees. The Company also leases IT equipment and other equipment with terms of one to five years. These leases are generally short-term or for low-value assets that the Company has elected not to recognize in right of use assets and lease liabilities. During the period ended December 31, 2019, expenses recorded in the statement of net earnings for short term and low value leases amounted to \$58,144 and \$9,401 respectively.

The Company makes variable payments under office leases that are not included in the measurement of lease liabilities. During the period ended December 31, 2019, the Company expensed \$36,867 in respect of such variable payments.

14 Earnings per share

The following table summarizes the calculation of the weighted average number of basic and diluted common shares:

	December 31 2019 \$	December 31 2018 \$
Issued common shares	28,675,695	28,675,695
Weighted average number of basic common shares Effect of share options on issuance	28,675,695	28,675,695
Weighted average number of diluted common shares	28,675,695	28,675,695

Options that were anti-dilutive are not included in the computation of diluted common shares. For the period ended December 31, 2019, 1,030,000 were excluded from the calculation because they were anti-dilutive (December 31, 2018 - 1,642,875).

15 Segmented disclosure

The Company provides comprehensive solution-based products and services in the fields of environmental geosciences and engineering, industrial hygiene, occupational health and safety, water and wastewater treatment and environmental management predominately in Canada.

The Company operates under one operating reportable segment due to the integration between technical disciplines required to serve its clients.

The chief operating decision maker is (collectively) the Chief Executive Officer, the Chief Financial Officer and the Board of Directors. Performance is evaluated by the chief operating decision maker based on gross margin and is measured consistently with gross margin in the financial statements.

Geographical information

The Company operates principally in Canada (country of domicile). Sales reported by client location based on origin of purchase (i.e., country of domicile of contracting party) are as follows:

(expressed in Canadian dollars) (unaudited)

For the three months ended December 31, 2019, approximately 37% (2018 – 51%) was derived from three clients, two of which account for over 10% of total revenue (2018 – no change).

The Company does not currently, or in the ordinary course of business, hold non-current assets outside of its country of domicile (Canada).

16 Revenue

Disaggregation of revenue

Revenue is disaggregated by client sector and contract type, since it best depicts how the nature, timing and uncertainty of revenue and cash flows are affected by economic factors.

Revenue from contracts with customers is disaggregated as follows:

			\$
	Fixed price \$	Time and materials \$	Total \$
Commercial and industrial Government Military Mining	743,993 406,106 276,409 183,299	1,761,176 779,529 923,605 1,241,457	2,505,169 1,185,635 1,200,014 1,424,756
	1,609,807	4,705,767	6,315,574
		Dec	ember 31, 2019 \$
